SUMMARY

Full Stack Developer with strong expertise in Java, experienced in building scalable and user-friendly web applications. Proficient in C and C++ with solid problem-solving skills. Skilled in working with databases including MySQL and MongoDB, with hands-on experience in database design, querying, and management. Passionate about developing efficient solutions and continuously learning new technologies.

SKILLS

Programming Languages: Java, C, C++, Python, Node.js

Databases: MySQL, MongoDB

Tools & Technologies: Git, GitHub, VS Code, Eclipse.

Frontend: HTML, CSS, JavaScript, Bootstrap, React.js

Backend: Core Java, Advanced Java, Spring Framework, Spring Boot, Hibernate, Express.js, REST API Development.

CERTIFICATES

- IT Fundamentals For Cyber Security.
- Networking Fundamentals- Cisco Networking Academy.

PROJECTS

Digital Stopwatch

2026

Designed and developed a responsive digital stopwatch using HTML, CSS, and JavaScript. Implemented start, stop, and reset functionalities with accurate time tracking and created a user-friendly and interactive UI.

Shield Her-Women Safety Application.

2025 – 2026

Built an Android safety app featuring GPS tracking, SOS alerts, and real-time data analysis. Integrated data-driven alerting logic for emergency response optimization.

Forgetting Tiffin Box-Recipe Sharing Platform

2022 – 2023

Developed a full-stack web application using Node.js, Express, MySQL, and JavaScript. Implemented search and filter algorithms to enhance user experience.

Coloshop- E-commerce project.

12/2025 – 05/2026

Developed a full-stack e-commerce web application that allows users to browse products, add items to cart, and place orders. Implemented user authentication and admin panel for product management. Built RESTful APIs using Node.js and Express.js, and used MySQL for secure data storage. The frontend was developed using HTML, CSS, JavaScript, and Bootstrap for responsive design. API integration was handled using JSON and tested with Postman.

COURSES

Java Full Stack Development
